

WITH
 BERTI

Diesel Living with Berti is the result of the research and the innovation on the transformation and treatment of materials applied on a collection of wooden floors, where several layouts and finishings turn each location in a 100% Diesel space.

We treat wood like a fabric. With the application of special dyes and treatments, evocative prints and special textures the wooden floor turn into a soft and transformable surface with an outstanding metamorphosis. Creating a customized environment, friendly with the inhabitant's experience.

Of Diesel Living with Berti collection, you can download the 3D models, BIM objects, textures and 3D surface libraries for free from this link:

WITH

COLLECTION: TRUE COLORS
ITEM: TRUE INDIGO

Working on the perfect chromatisms is a must for Diesel: indigo, the typical denim colour, paints these wide planks in a natural way, living the wood veins visible. We also developed other colours which were designed and conceived as a basic underlayer through an in-depth study of the chromatic factor. The nuances developed are rich, as the black enriched with a trace of blue, reveal a clear signature expression, showing a colour that is never flat.

WOOD: OAK
WOOD FINISHINGS: Slightly brushed, stained, lacquered

WITH
 **BERTI**

COLLECTION: URBAN GREY
ITEMS: DUOTONE, VEIN

Grey, the industrial colour par excellence, is a strong base for interiors as it is also the concrete's colour, expressive material on contemporary living spaces. It is through this set of greys that we give an interpretation of concrete, working its details in the chromatic shades and in the treatments, with refined aesthetic results.

DUOTONE
WOOD: OAK
WOOD FINISHINGS: Brushed, with texture effect, lacquered color

VEIN
WOOD: OAK
WOOD FINISHINGS: Deep brushed, with limed effect, lacquered color

WITH

COLLECTION: SPECIALS

ITEMS: GREY/BLACK/NATURAL SHADOW

A contemporary look with a classical geometrical composition and layout given by a shadowing effect. Playing with a paint applied with a gradient we create shadows for a three-dimensional impact.

WOOD: OAK

WOOD FINISHINGS: Smooth surface, lacquered
